

## WiSE Smart Module - Technical Data

Operating Conditions	-20 to +55°C (TBC)
Humidity Range	%Rh (non-condensing) >75%
Environmental	N/A – designed to be fitted inside a weatherproof enclosure
Dimensions (LxWxD)	75mm x 52mm x 50mm (3DIN Module width)
Weight	70g
Power source	External power supply
Operating Voltage	5.0V DC
Radio Frequency	458.500 to 458.675MHz 2.4GHz Bluetooth
Transmitted Power	Up to 500mW
Protocol	Ramtech proprietary
Antenna	¼ wave helical spring antenna via SMA connector
Standards	EN60950-1 EN6100-6 EN50131-1 (designed to) EN300-220
Data storage	In the event of loss of radio link, up to 8 weeks of count data is stored on board
